

**Press release****Fresh breeze for the USA:  
Global Renewables Shipbrokers opens office in Atlanta****Hamburg-based shipbroker GRS continues to forge ahead with its growth strategy by establishing a new branch office.**

Growth continues unabated. Now GRS is not just supporting its clients from its Hamburg headquarters, but also from its office recently established in Atlanta. “The new US office is an important step for us as part of our growth strategy,” explains Matthias Mross, GRS Managing Partner. The decision to set up this branch abroad and at a new continent is another real milestone for the company geared towards international business. From Atlanta Alexander Gentsch will continue to extend the excellent network in the USA, the Gulf of Mexico Area and the Caribbean Sea for the European specialist shipbroker. “Being close to our clients and ship owners is of primary importance for us. Now they can benefit from very close collaboration and personal support in the US as well.” emphasizes GRS Managing Partner Philippe Schönefeld.

Through a steady process of development for both the company and its service portfolio, GRS has become the European market leader in offshore renewable energy within a very short time span.

**About GRS:**

Established in 2011, GRS is the first independent specialist shipbroker for charter, purchase and sales of offshore tonnage and equipment in renewable energy. For many years GRS has been supporting its clients in global and independent procurement and bidding procedures, thus helping them to save time, optimize processes and reduce costs with all important suppliers in the offshore industry. The whole team works in line with the company’s motto “Any Vessel Anytime”, in order to offer all of its clients the best prices, availabilities and service providers in the market on an ongoing basis. From the very first day of planning and for each project phase, GRS provides databased support to its clients in the global search for suitable vessels, proven shipping companies and offshore services. Detailed expertise and a network that has grown throughout the world make GRS the leading shipbroker for offshore tonnage in renewable energy.
